A black and white photograph of an oil pumpjack (nodding donkey) in an industrial setting. The structure is complex with many pipes, ladders, and metal beams. The background shows some trees and a clear sky. The title 'OIL/GAS + INDUSTRIAL' is overlaid in large, white, sans-serif font across the bottom of the image.

SATISFACTION GUARANTEE: We understand your order is priority, as such we will make every effort to provide prompt replies and deliver your products on time. We will also make every effort to provide accurate research and information about your products. Please contact 310-SIGN Inc. via phone, fax, or email with any questions or concerns. We're always happy to help.

CUSTOMIZED PRODUCTS: Products which are considered customized, specialized or personalized are non-refundable.

ARTWORK PROOFS: Proofs are not supplied by default but are available upon request. Written approval may be required prior to production. Requests for artwork proofs may delay shipment of your order. Artwork, mock-ups, files or other items supplied or designed by us shall remain our property.

PRODUCT SPECIFICATIONS: Product colors, material choices, and other specifications are subject to change without notice and may vary. Colors are reproduced as accurately as possible. Items may be discontinued at any time without notice.

CANCELLATION: Once an order is placed it immediately goes into production. As such, we are unable to accommodate order changes or cancellations. Should you require a cancellation, please contact customer service immediately to discuss any possible arrangements.

OVER/UNDER RUNS: High volume orders are subject to a 10% variance and shall be billed accordingly. Over runs and under runs include, but are not limited to: printed stickers, labels, decals, tags or signs which contains the same graphic on all items.

DAMAGED SHIPMENTS: Buyer should inspect all items upon receipt. If damage occurs in transit, Buyer should note the extent of the damages on the packing slip and contact us immediately. Our responsibility for loss or damaged items ceases when the carrier accepts the products for shipment.

RETURNS: If you need to return any stock product, please contact customer service. A restocking fee may apply. 310-SIGN Inc. warrants its products to be free from defects at the time they are sold. The customer is responsible for testing the products for their intended use. 310-SIGN Inc. cannot be held responsible for the customer's inability to use the products purchased. 310-SIGN Inc. liability is limited to the replacement of the products sold, provided it can be determined that they were defective at the time they were sold.

REGULATORY INFORMATION: Many of the 310-SIGN Inc. products found in this catalog and on our website(s) have been designed to comply with one or more industry standards. SINCE WE HAVE NO KNOWLEDGE OF YOUR SPECIFIC HAZARD, FACILITY OR SITUATION, IT IS IMPOSSIBLE FOR 310-SIGN INC. TO GUARANTEE THAT YOUR USE OF OUR PRODUCTS WILL COMPLY WITH ANY LAW OR STANDARD. THE INFORMATION IS ACCURATE TO THE BEST OF OUR KNOWLEDGE BASED ON OUR REVIEW OF THE INDUSTRY. 310-SIGN INC. MAKES NO GUARANTEE OF INFORMATION PUBLISHED IN THIS CATALOG. User/buyer assumes full responsibility for compliance with applicable safety standards and regulations for the products purchased and created. Information, in the form of standards, citations, and quotations, provided herein is intended for general purpose only, and should not be construed or relied upon as legal advice or legal opinion on any specific facts or circumstances. We shall not be responsible for any damages of any kind that may arise out of, or result from, reliance on the information within catalogs, product descriptions, information pages, videos or any means of communications.

LIMITED PRODUCT WARRANTY: We warrant to the Buyer that our products are free from defects in material and workmanship; limiting our obligation under this warranty to replacement of the product if we are satisfied it was defective at the time of sale. This warranty does not extend to any persons obtaining the product from the Buyer. THIS WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ANY OTHER OBLIGATIONS OR LIABILITY ON OUR PART. UNDER NO CIRCUMSTANCES WILL WE BE LIABLE FOR ANY LOSS, DAMAGE, EXPENSE, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND ARISING IN CONNECTION WITH THE USE, OR INABILITY TO USE, OUR PRODUCTS. There are no warranties extending beyond those described and, where applicable, additional written warranties as to certain special products of ours. Our sole responsibility and the Buyer's exclusive remedy for any claim arising out of the purchase of any product in this catalog is repair, replacement or credit, where applicable. In no event: (1) shall the cost of the remedy exceed the purchase price; (2) shall 310-SIGN Inc. be liable for any special, indirect, incidental, consequential, or exemplary damages, howsoever arising, even if we have been advised of the possibility of such damages.

310-SIGN Inc. cannot be held liable for any loss, damage, or expense of any kind as a result of the use, or inability to use 310-SIGN Inc. products.

BUILD YOUR OWN SAFETY SIGNS AND LABELS

Sometimes standard signs just don't cut it. We get that, that's why we have a large selection of *Build-Your-Own* signs and labels on our website and we've made it super easy to customize the sign you need.

- 1.) Choose the Style of Sign you want,
- 2.) Select the Header you want to use,
- 3.) Select the Pictograms that best suit your application,
- 4.) Write your own Primary Message and Secondary Message (if needed),
- 5.) Upload your Company Logo and Contact Information.

Situations where an immediate hazard will cause death or serious injury to workers and/or the general public if not avoided. This designation is to be used only in extreme situations.

ID: CUSTH004
DANGER W/PICTOGRAM

Situations where a potentially hazardous condition exists that could result in the death or serious injury of workers and/or the general public if not avoided.

ID: CUSTH008
WARNING W/PICTOGRAM

Situations where a non-immediate or potential hazard presents a lesser threat of injury that could result in the minor or moderate injuries to workers and/or the general public.

ID: CUSTH003
CAUTION W/PICTOGRAM

Situations where a non-immediate or potential hazard presents a risk to damage of property and equipment. May be used to indicate important operational characteristics. There is no "Safety Alert" or attention symbol present in this situation.

ID: CUST002
NOTICE W/PICTOGRAM

Classic-style OSHA signage was made obsolete by the incorporation of ANSI Z535-4 in 2002. Up-to-date ANSI designs for safety and component labeling and descriptions of those various hazard levels are above.

SAFETY SIGNS - PPE

Personal Protective Equipment (PPE) refers to protective clothing, hard hats, protective eye wear, or other garments and equipment designed to protect the person wearing the equipment from injury. The hazards addressed by protective equipment include physical, electrical, heat, chemicals, bio-hazards and airborne particular matter.

ADMITTANCE AND SECURITY

Site admittance protocols are part of a complete health and safety program. Work-sites are full of hazards that visitors may be unaware of - help mitigate liability with proper signage and security controls in place. Security signage is a great visible deterrent against theft and vandalism.

CONFINED SPACE

Many workers are injured or killed each year while working in confined spaces. Confined spaces can be found in almost any workplace, below or above ground. Despite the name, these spaces are not necessarily small, examples include, silos, vats, hoppers, utility vaults, tanks, sewers, pipes, access shafts, truck or rail tank cars, boilers, manholes, manure pits and storage bins. Ditches and trenches may also be a confined space when access or egress is limited.

H2S SAFETY

Hydrogen Sulfide or sour gas (H₂S) is a flammable, colorless gas that is toxic at extremely low concentrations. All personnel working in an area where concentrations of Hydrogen Sulfide may exceed 10 Parts Per Million (PPM) should be provided with proper training. Signs should be visibly posted in areas where Hydrogen Sulfide by be present. It is heavier than air, and may accumulate in low-lying areas. It smells like "rotten eggs" at low concentrations and causes you to quickly lose your sense of smell.

THE MUSTER POINT

Muster Point Signs are used to inform people of the location they must go in case of an emergency. An employer must ensure that workers are made aware of the muster point through signage, marking, or by other appropriate and effective means.

PIPELINE SIGNS

Pipeline signs are manufactured on premium grade, rust-free aluminum with pre-drilled center holes top-and-bottom for easy mounting to our 6.5' LD-Posts. We'll also add your full-color company logo to each sign at no additional charge. 5-year guarantee against sun fading, peeling or cracking. Quality you can see...year after year.

GHS PLACARDS

GHS stands for the *Globally Harmonized System of Classification and Labelling of Chemicals*. GHS is a system that defines and classifies the hazards of chemical products, and communicates health and safety information on labels and material safety data sheets (called Safety Data Sheets, or SDSs, in GHS). The goal is that the same set of rules for classifying hazards, and the same format and content for labels and safety data sheets (SDS) will be adopted and used around the world.

RADAR SIGNS

310-SIGN is pleased to be able to provide you the best range of Radar Speed Signs available and is proud to be the exclusive Western Canadian distributor of Radarsign Speed Signs.

Trailer Hitch Mount Radar Speed Sign

ID: FA025

Radarsign on the GO radar speed sign trailer hitch is a traffic calming solution where you need it, when you need it.

The radar speed sign trailer hitch allows you to take your radar speed sign to targeted locations where traffic calming is needed on a temporary basis such as:

- Highway & Road Crews
- Traffic Maintenance Personnel
- Public Works Professionals
- Construction Workers
- Special Events Staff & Spectators

Radarsign on the GO Features:

- Maximum portability. Hitch can be removed in 15 seconds.
- Armored construction, weather tight, vandal resistant and bullet resistant
- Maintenance free
- Eliminates the need for a trailer at 1/2 the cost
- Extended battery life. Radar speed sign will operate up to 2+ weeks on a single charge with optional internal battery backup.
- Easy to store in most police trunks
- Requires 12 volt supply.

ID: KT001 Mobile Patrol Stand

A radar speed sign mounted on a Mobile Patrol Stand is ideal for locations where traffic calming is needed on a temporary or rotating basis.

The Mobile Patrol Stand is an easy way to add mobility to your traffic calming efforts. The Stand can be used with the TC-400 or the TC-500 radar speed signs. Assembled, it fits into a standard pick-up truck bed. Built with a 36" x 33" steel base powder coated safety orange with four anchor holes to ensure stability. Available in 6ft. or 8ft. aluminum poles (3.5" diameter). With the 10" angled wheel one person can easily tilt and position the stand.

ELECTRONIC EQUIPMENT

We carry a large selection of solar powered electronic equipment including: Arrow Boards, Light Towers, Message Boards and Portable Speed Trailers.

Arrow Boards

The Silent Sentinel Arrow Boards are available in either 15 or 25 lamp configurations with trailer or vehicle mount options.

ID: STTMA-25

ID: STVMA-15B1

Speed Radar Trailers

The Silent Sentinel Arrow Boards are available in either 15 or 25 lamp configurations with trailer or vehicle mount options.

ID: STRST-02

ID: STRST-01

Message Boards

Our versatile message boards are available in vehicle mount or trailer mount with lift and tilt systems. Sizes range from small for limited space applications with panel sizes of 60" x 30" to our larger panels of 126" x 76". They feature options such as remote management and radar. Visit us online to view our complete line-up and to learn more at 310sign.ca

ID: STSMB-03

ID: STSMB-01

Solar Light Towers

This 30 foot portable tower is an adaptable solar-powered platform that can be outfitted with lights, cameras, sensors, antennas and other communication devices. It features a three stage telescoping and rotating mast (variable deployment heights between 13.5'(min) and 30' (max). With continuous year-round, uninterrupted power capable of providing a minimum of 950 watt-hours per day of electrical power (nominal 75 amp hours per day at 12.5 volts DC). It's heavy duty construction - all steel trailer frame, provides lasting durability

ID: STPTT-01

ENGRAVED TAGS / ASSET IDENTIFICATION

Permanent nameplates, electrical marking, asset IDs and even engraved locks. We can laser etch anything from stainless steel to anodized aluminum and more! Any shape, size or colour!

ALL PRODUCTION IS DONE IN-HOUSE / MOST ORDERS SHIP IN 48 HOURS OR LESS.

LAMACOID ID TAGS / NAMEPLATES

Great for electrical marking, office door/desk nameplates and more. Available mounting options include: Adhesive backing, pre-drilled holes or nameplate holders.

NEED LOCKOUT TAGS?
SEE PAGE 26 → →

B

LOCKOUT / TAGOUT

Lockout is the isolation of energy from the a machine, equipment, or process which physically locks the system in a safe mode. Tag Out is a labelling process that is used when lockout is required. The process of tagging out a system involves attaching a standardized tag that includes the following information:

- Why the lockout/tag out is required (repair, maintenance, etc.).
- Time of application of the lock/tag.
- The name of the authorized person who attached the tag and lock to the system.

500,000 TAGS AND COUNTING.

Seal Tag Lock-Out Tag-Out - Exclusive to 310-SIGN

Completely customizable self-laminating tags. One side can be easily written on and then sealed from the elements with the clear self-adhering over-layer.

Size:

Standard: 3" (w) x 6" (h)

Custom sizes available upon request.

Material:

10 Mil PVC UV + Weather Resistant

Grommets / Eyelets:

10 Mil PVC - 1/4" or 1/2" for locks

A

A EXAMPLES IN ACTION

Our Lock-Out tags are being used on job sites all over North America. The Over-Laminate seal and ease of use has made them a top choice. Resists fading, survives a 50lb pull test and seals your message from the elements. If you want to try them out for yourself, just let us know!
